

# Wedding Decor Checklist

## Ceremony

---

At the ceremony, welcome guests and give instructions about seating arrangements and phone usage (unplugged ceremony, anyone?) with outside wedding decorations and cute signs. Accents like flowers, tulle or ribbon bows, and an aisle runner create a pretty backdrop for your procession. And accessories for your flower girls, ring bearers, and pets ensure that everyone is ready to celebrate.

## Cocktail hour

---

With the addition of a few personalized elements—striped or patterned paper straws for your signature drink, custom cocktail napkins, and glasses or matchbooks that guests can take home—you'll make this hour-long interlude a memorable part of the day. Don't forget to put out a sign that says what drinks you're serving!

You can transform any reception venue to fit your theme with the right wedding decorations. Think glowing candles, seating cards that match your invites, delicious favors placed at every table, a sign stating your hashtag, and, of course, something special for on top of the cake.
